

A Closer look at the BLDC motor – 72ZWS100

[72ZWS100 BLDC motor](#) applications: Industrial Control, Medical Equipment, Auto Parts, Robot, Intelligent Storage, Fitness Equipment, etc.

[Duowei Electric](#), the leader in micro-motor manufacturer and motion control systems products, has announced the release of its [2018 new Brushless Micro motor](#) which is low interference, low noise, smooth running, long life, and also low maintenance costs.

The 72ZWS series Brushless Micro motors with integrated customized driver, which

the efficiency up to 98.5 per cent in brushless DC (BLDC) motor drive applications. 72ZWS100 are widely used in air cleaner, the integrated driver has 5 speed levels to meet your different kinds of requirements, reducing both system cost and weight, making this device family ideal for [BLDC motors](#) in home-appliance applications. The 72ZWS series Brushless Micro motors with devices target Industrial Control, Medical Equipment, Auto Parts, Robot, Intelligent Storage, Fitness Equipment and other residential and light commercial pumps, fans and blowers.

Details of how the [72ZWS series Brushless Micro](#) motors can be found here.
